Dear All

This is the adjusted meeting that will be held every four weeks to discuss significant disruptive access across the whole of the North West and Central.

The format of these meetings will be one meeting face to face every quarter, with the other two meetings in that quarter being TEAMS based.

The agenda will be a bespoke one for each meeting, meaning that the agenda and the topics discussed will alter for each meeting based on the work being discussed. I hope to ensure that the face to face meetings will be either North West focused or South / Central focused mainly due to meeting room space and to avoid the whole group needing to be in attendance.

Prior to each meeting an agenda will be circulated to inform you all of the items being discussed. It will be for you to decide whether each meeting warrants your attendance.
